

Jordi Casas new Chief Operating Officer of the Automotive Division of Ficosa Group

- **Mr. Casas will replace in the position to Mr. José Vicente de los Mozos, who rejoins Renault.**

Barcelona (Spain), 1st of October 2009.- From next 2nd of November Jordi Casas will be the new Chief Operating Officer of the Automotive Division of Ficosa Group, world leader in the development, production and commercialization of systems and components for vehicles.

Jordi Casas (1963 Barcelona, Spain) is an industrial engineer. He joined Ficosa in 1990 as Product Engineer. And since then he has held various senior positions in the corporate organizational chart of the Spanish multinational company, highlighting among them, Technical Director of product lines of the Command & Control Systems Business Unit (1994 – 2002), Managing Director of the Command and Control Systems Business Unit (2002 – 2005), and Director of the Southern Europe Region (2005 – 2008). Currently he was the Group Operations Director.

Mr. Casas will replace in the position Mr. José Vicente de los Mozos, who reincorporates into Renault at the highest level, at the request of the French multinational company.

Ficosa and Renault have a close relationship since the middle of the 60s when the Spanish multinational company started to be an official supplier and technological partner of the French brand. In line with this good relationship, it is an honor for Ficosa that Renault has requested Jose Vicente to rejoin the French Group, in which he has developed great part of his professional career, valuing very positively the personal and professional opportunity that this means for Mr. de los Mozos, besides the recognition of his person and his good labor at the head of the Ficosa's Automotive Division.
