

FICOSA, chosen by Renault-Nissan as supplier of automatic shifter systems

Viladecavalls (Barcelona), 5th of October, 2011.- The Spanish multinational FICOSA has been chosen by the French-Japanese alliance Renault-Nissan to produce the automatic shifter systems for next generation small segment vehicles.

FICOSA will commercialize and produce these products for the markets of Europe, Nafta, Mercosur and Asia. At the same time, the Japanese company Fuji Kiko will produce the volumes of the shifter for the Chinese and Japanese markets. This agreement is a direct result of the collaboration between the companies involved.

This contract will represent sales of 45 million Euro. According to Xavier Pujol, CEO of FICOSA, *“this is a clear example of how our customers trust our company. The nomination of FICOSA as sole supplier for automatic shifter systems reflects the commitment of our company with innovation and growth in rising geographical areas, such as Nafta or Mercosur”*.

About FICOSA

FICOSA is an industrial group based in Spain and a global leader in research, development, production and marketing of automotive systems and parts. Founded in 1949, the company, with headquarters in Barcelona (Spain), holds a team close to 8,000 employees and manufacturing plants, technological centres and offices located throughout 19 countries in Europe, North America, South America and Asia.

The Group invests 4% of its income in R&D, and operates one of the top technology development centres in Spain addressed to the automotive, electronics, energy and communications industries. FICOSA has positioned itself for the future as a world leader in electronic systems with a global and more diversified business agenda and an expanded added value product line.
